**STATEMENT ACKNOWLEDGING PENAL AND CIVIL PENALTIES
CONCERNING THE CONTRACTORS' LICENSING LAWS
[Business & Professions Code 7028.15]
[Public Contract Code 20103.5]**

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor's license as set forth below:

Business & Professions Code 7028.15:

- (a) **It is a misdemeanor for any person to submit a bid to a public agency in order to engage in the business or act in the capacity of a contractor within this state without having a license therefore**, except in any of the following cases:

- (1) The person is particularly exempted from this chapter.
- (2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20103.5 of the Public Contract Code.

- (b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars (\$4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, "the price of the contract" for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.

- (c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his or her individual licensure.
- (d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractor to render services within the scope of their respective practices.
- (e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered non-responsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to

7028.13 inclusive. **Any contract awarded to, or any purchase order issued to, a contractor who is not licensed pursuant to this chapter is void.**

- (f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
- (g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractor's State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law including, but not limited to, any appropriate disciplinary action by the Contractor's State License Board. The agency shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

REQUESTS FOR INFORMATION RESPONSES**

The following requests for information were received prior to June 17, 2022, 4:00 pm.

	Question	Response
1	Good Morning, Is there a cost estimate or budget for the project?	A cost estimate was provided 6/6/22 to the bid posting, https://www.bpxplanroom.com/jobs/816/plan-holders/kensington-fire-protection-district-public-safety-building-seismic-renovation
2	Do you know the current construction estimate or budget?	See response to question 1.
3	It would be great if you could make the prebid meeting mandatory. Since it is a renovation, I would highly recommend the prebid to be mandatory.	It was discussed with the Kensington FPD District Manager and the project team does not feel it is necessary to make the pre-bid visit mandatory. Applicant responses will be noted for attendance at the pre-bid for any bid conformance anomalies and will be taken under consideration regarding attendance.
4	Bid documents requested	Bid documents have been acquired and bidder was directed to bid posting.
5	Will there be any shoring requirements?	Refer to email attached to this document from ZFA Structural Engineers.
6	Prior to attending the bid walk, would you mind to provide us a Engineer's estimate for this project?	See response to question 1.
7	What is the engineers estimate for the project?	See response to question 1.
8	Can you confirm the bid due date, if there is an intended date to award, and if you have a rough estimate of the start date on this project?	Per page I-2, <i>"The award, if made, will be within ninety (90) calendar days after the opening of the proposals; provided that the award may be made after said period if the successful bidder has not given the District written notice of the withdrawal of their bid. Bidder agrees that this bid shall be good for a period of ninety (90) calendar days after the scheduled closing time for receiving bids."</i> The exact project start date will be determined after the award is made.
9	Lyons' is trying to download the specs for the project mentioned above but are unable to. It is asking that we purchase them again. Lyons has already purchased the digital download of the files. Please advise how I can obtain the specs.	Due to difficulty with the transmission, the Project Manual has been provided via DropBox shared file and bid posting.
10	The Table of Contents shows Section 05 1100 but that section is not appearing in the project manual. Could you please advise?	This section has been erroneously omitted. The revised Project Manual was updated and issued with Addendum 2.

**KENSINGTON FIRE PROTECTION DISTRICT
REQUESTS FOR INFORMATION RESPONSES**

11	Please double check the uploaded Specifications on Bay Area Builders Exchange for PUBLIC SAFETY BUILDING SEISMIC RENOVATION bidding 07.01.2022. There seems to be incorrect information in this file. (i.e. bid date is set for 06/20/2022, contract period for completion of work is 50 working days..). Please advise.	Additional errors to the original Project Manual were noted. The revised Project Manual was updated and issued with Addendum 2.
12	Does this project have a PLA (project labor agreement), PSA (project stabilization agreement, or anything similar to either of those?	See Prevailing Wage Instructions, GP-3, KFPD Instructions to Bidders.
13	Which file under the “Public Safety Building Renovation” page on the www.kensingtonfire.org site has drawings/plans from the last remodel? So far the only full set of plans for the PSB I’ve found appear to be the original drawings titled “May 05, 1967 PSB Design Dwgs from 1967 to 1970”.	Links to these documents have been added to our website at: https://www.kensingtonfire.org/public-safety-building <ul style="list-style-type: none"> •Apr 30, 2010 PSB Renovation Drawings •Jul 08, 2005 PSB Hazardous Materials Abatement Spec •Jul 29, 2004 PSB Renovation Drawings •Sep 10, 1998 PSB Renovation Drawings •Sep 10, 1998 PSB Renovation Specs
14	Do you have the Section 05 1100 available yet?	See response to question 10.
15	Page GP14 paragraph 26 calls for a superintendent and project manager to be onsite at all times. This is an unusual requirement for a job this size. Can the project manager work from the home office instead of being onsite?	No.
16	Do you know if the project is required to have Builder’s Risk policy?	Insurance requirements explained on page C-5, KFPD Instructions to Bidders.
17	Is the elevator gurney accessible?	No, the elevator is a Limited Use Limited Access Size since the 2 nd floor exits directly onto grade.
18	Is there a Hazardous Materials Report? Is there asbestos in the building?	There is not a current Hazardous Materials Report and the presence of asbestos is unknown at the time of response. Demolition subcontractor can assume a report will be necessary to confirm the presence of hazardous materials and appropriate measures.

**KENSINGTON FIRE PROTECTION DISTRICT
REQUESTS FOR INFORMATION RESPONSES**

19	Is there a demolition reflected ceiling plan? Or will all of the drywall be required to be removed at the ceiling?	Yes, finish ceilings throughout the building will be removed.
20	What is the construction duration?	365 working days as listed is equivalent to 18 months as we do not anticipate weekend work given that the project is located within a residential neighborhood. The fire personnel will be vacated to a temporary location for the duration.
21	Will switch gear or a P, G & E permit be required?	It should be assumed that the existing service may need to be updated but that no new P G & E permitting will be required since it is an existing fire station that will remain.
22	Will a haz mat report be included in Addendum 2?	See response to question 18.
23	Will Addendum 1 be re-issued?	See response to question 11.
24	Is permitting to be through Contra Costa County despite being a public building?	Yes, permitting is in progress by Contra Costa County and is expected to be completed shortly.
25	Schedule – Can the bid due date be postponed? 7/1/22 is right before a holiday weekend.	No. Also see response to question 8.
26	Will all interior finishes be removed except for primary structural walls?	Yes, the interior finishes will be removed. Refer to the demolition plans in the drawing set for areas being removed or demolished.
27	Are there any bid alternates?	No, none at this time.
28	Will the existing generator remain?	Yes, it is in good working order and maintained regularly.
29	At the job walk it was said that the time for completion will change to 18 months. This seems longer than necessary for a project of this size & complexity. Is the lengthy duration because of the “KFPD RFP 2022 01 Temporary Fire Station” project? Such as moving fire personnel in & out of the temporary facilities?	See response to question 20.
30	Are bidders required to carry a Builders Risk insurance policy? If so, what are the specific requirements (i.e. earthquake, flood, limits, etc)? If not, does the KFPD have a COC policy in force for this project? Will it include the Contractor as an insured on the policy?	See response to question 16.

**KENSINGTON FIRE PROTECTION DISTRICT
REQUESTS FOR INFORMATION RESPONSES**

31	In the Notice to Contractors the duration for this project is stated as 365 work days . On page 26 of the Cost Estimate the project duration is shown as 456 calendar days. With the start & finish dates set for 9/1/22 – 12/1/23. Then at the job walk yesterday it was said that the project duration will be 18 months.	See response to question 20.
32	At the job walk it was said that the time for completion will change to 18 months. This seems longer than necessary for a project of this size & complexity. Is the lengthy duration because of the “KFPD RFP 2022_01 Temporary Fire Station” project ?	See response to question 20.
33	Would it be possible to get the Geotechnical report and Prebid sign-in sheet for the mentioned work? Also, when will the addenda be available?	A letter from the Geotechnical Engineer and the Sign-In Sheet was posted with Addendum 2, 6/16/22. The letter refers to past Geotechnical Engineering Reports for the project. Addendum 3 will be posted on 6/22/22.
34	In table of contents Division 3 in project manual for Public Safety Building Renovation Project consists of 5 sections, only 1 section is included in project manual. Please provide other four.	See response to question 11.
35	I would like to view the sign-in sheet/attendance list from the prebid meeting that was held on June 14th for the 'Public Safety Building Seismic Renovation' Project and was hoping you might be able to help or perhaps know who can.	See response to question 33.
36	We received the link to the Specs, but they are for the wrong project. Do you know when the correct Specs will be released and if so will you be pushing the bid date due to not having the correct documents?	See response to question 11.

37	We are going to be providing a quote for division 14-00-00 equipment ADA Wheelchair Lift on your project. Re: Revised Bid Pricing Schedule

Dear Potential Bidders,

Attached is a revised Bid Pricing Schedule, dated 06/28/2022, which replaces the prior schedule. The only change included in this amended document is the addition of **Line Item 50 – “Misc Other Division Work”**.

This line item has been added to allow for any other prices that are interpreted to be not a part of line items 1 thru 49, but still contribute to the Base Bid Total.

Per page I-2 in the “**Instructions to Bidders**”, please note that “...*The award of the contract, if made by the District, will be to the lowest responsible bidder.*” The determination will be based on the *Base Bid Grand Total* listed at the end of the schedule.

Sincerely,

[Business & Professions Code 7028.15]
[Public Contract Code 20103.5]**

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor's license as set forth below:

Business & Professions Code 7028.15:

- (a) **It is a misdemeanor for any person to submit a bid to a public agency in order to engage in the business or act in the capacity of a contractor within this state without having a license therefore, except in any of the following cases:**
 - (1) The person is particularly exempted from this chapter.
 - (2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20103.5 of the Public Contract Code.
- (b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars (\$4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, "the price of the contract" for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.
- (c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his or her individual licensure.
- (d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractor to render services within the scope of their respective practices.
- (e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered non-responsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to

7028.13 inclusive. Any contract awarded to, or any purchase order issued to, a contractor who is not licensed pursuant to this chapter is void.

- (f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
- (g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractor's State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law including, but not limited to, any appropriate disciplinary action by the Contractor's State License Board. The agency shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

 - (2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20103.5 of the Public Contract Code.
- (b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars (\$4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.
- In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, "the price of the contract" for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.
- (c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his or her individual licensure.
- (d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractor to render services within the scope of their respective practices.
- (e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered non-responsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to

7028.13 inclusive. **Any contract awarded to, or any purchase order issued to, a contractor who is not licensed pursuant to this chapter is void.**

- (f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
- (g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractor's State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law including, but not limited to, any appropriate disciplinary action by the Contractor's State License Board. The agency shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

**STATEMENT ACKNOWLEDGING PENAL AND CIVIL PENALTIES
CONCERNING THE CONTRACTORS' LICENSING LAWS
[Business & Professions Code 7028.15]
[Public Contract Code 20103.5]**

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor's license as set forth below:

Business & Professions Code 7028.15:

- (a) **It is a misdemeanor for any person to submit a bid to a public agency in order to engage in the business or act in the capacity of a contractor within this state without having a license therefore, except in any of the following cases:**

- (1) The person is particularly exempted from this chapter.
- (2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20103.5 of the Public Contract Code.

- (b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars (\$4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, "the price of the contract" for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.

- (c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his or her individual licensure.
- (d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractor to render services within the scope of their respective practices.
- (e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered non-responsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to

7028.13 inclusive. **Any contract awarded to, or any purchase order issued to, a contractor who is not licensed pursuant to this chapter is void.**

- (f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
- (g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractor's State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law including, but not limited to, any appropriate disciplinary action by the Contractor's State License Board. The agency shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

INTENTIONALLY LEFT BLANK

**STATEMENT ACKNOWLEDGING PENAL AND CIVIL PENALTIES
CONCERNING THE CONTRACTORS' LICENSING LAWS
[Business & Professions Code 7028.15]
[Public Contract Code 20103.5]**

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor's license as set forth below:

Business & Professions Code 7028.15:

- (a) **It is a misdemeanor for any person to submit a bid to a public agency in order to engage in the business or act in the capacity of a contractor within this state without having a license therefore, except in any of the following cases:**

- (1) The person is particularly exempted from this chapter.
- (2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20103.5 of the Public Contract Code.

- (b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars (\$4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, "the price of the contract" for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.

- (c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his or her individual licensure.
- (d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractor to render services within the scope of their respective practices.
- (e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered non-responsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to

7028.13 inclusive. **Any contract awarded to, or any purchase order issued to, a contractor who is not licensed pursuant to this chapter is void.**

- (f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
- (g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractor's State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law including, but not limited to, any appropriate disciplinary action by the Contractor's State License Board. The agency shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.
