

KENSINGTON

FIRE PROTECTION DISTRICT

Agenda Item 06b

DATE: March 19, 2025
TO: Board of Directors
RE: Ordinance options related to street changes: road widening, parking, one-ways
SUBMITTED BY: Mary A. Morris-Mayorga, General Manager

Recommended Action

This item is for information only, no action is requested at this time.

Background

At the February 19th Board of Directors meeting, Director Watt provided an update on street changes: road widening, parking, one-ways and next steps from work of the ad hoc committee. The Board discussed the item and requested that staff seek the opinion of legal counsel on what ordinances the District could draft to increase fire safety related to this. Staff has requested this along with how those options may change following the reorganization with KPPCSD as a community services district.

This information will be reported verbally unless it becomes available in sufficient time to provide an updated staff report for the packet.

Fiscal Impact

There is no fiscal impact identified at this time.
